RAPID ANTIGEN TESTS

Office-based Consumables

Office-based Supplies required

- QR code check in for swab desk (separate to building QR code if off site – secluded area)
- Containers for pens x 2 (new & used)
- Timer for rapid antigen test time (may need multiple if multiple tests are being performed)
- Clinical waste bin
- Stickers – to label each individual test cassette of the person
- Instructions for Rapid Antigen Test Kit
- Patient Consent and swab test form

Example of a typical workflow for testing at a dental practice
